### AIM

RICH is an International Summer School organized by the University of Pavia. It focuses on the reuse and valorisation of Cultural Heritage, especially abandoned or underused churches and religious complexes.

The main purpose is to develop sustainable design strategies and solutions in order to satisfy the requirements due to new functions, enhancing meanwhile historical and architectural values.

There will be lessons about the reuse design project and the valorisation of Cultural Heritage as places of memories and new use.

The case study is the **ex Certosina of Palazzo Botta in Pavia**, a historical university building that will be investigated on different project levels starting from urban and public spaces, scaling down to the building, in relation to historical, architectural and technical aspects.

### PARTICIPANTS

- University of Pavia  
(DICAr, Dipartimento di Ingegneria Civile e Architettura)
- Università di Genova  
(DSA, Dipartimento di Scienze per l'Architettura)
- Universidad Europea de Madrid  
(Máster Universitario en patología, peritación y rehabilitación sostenible del patrimonio)
- Universitat Polytechnica de Valencia  
(Instituto de Restauración del Patrimonio)
- Niğde Üniversitesi  
(Department of Architecture)

The participants, coming from different countries, will work together divided in mixed groups, sharing knowledge and experiences.
