Engineering and Computer Science

# The data transmission network of the University of Pavia Monitoring and Management

*Dr. Claudia Venturini – Dr. Maria Grazia Tambani*  
Area Tecnica Informatica e Sicurezza  
Università degli Studi di Pavia

4 April 2017 – h 11:00  
Classroom C6  
Via Ferrata 5 - Pavia

**Abstract:** The seminar presents the design and implementation of the data network of the University of Pavia with particular attention to the management infrastructure. After a brief introduction of the network infrastructure, the main functionalities of the management tools used for monitoring both the wired and wireless networking infrastructure are explained and discussed.

**Biographies:** Claudia Venturini graduated in Mathematics at the University of Pavia in 1991. She started her career as a High School teacher. Since 1993 she has been working at the University of Pavia in the management networks office. She has been APM of the GARR pole of the University of Pavia since 1999.

Mariagrazia Tambani graduated in Electronic Engineering at the University of Pavia in 1996. Until 2002 she worked as software systems engineer at Digital Equipment, Compaq Computer and HP. Since 2002 she has been working at the University of Pavia in the management networks office.

## Organizer

Prof. M. Calzarossa

## Ph.D. Coordinator

Prof. Paolo Di Barba

Seminar in English.
