INTERNATIONAL MOVIE NIGHTS

Join us for a pleasant, yet rewarding evening as we watch films that challenge the stereotypical portrayal of a "person". For the two hours that you'll spend with us, be ready to look at the world through the eyes of a person who is very different from you. We picked the films that portray controversial themes and diverse cultures as well as show a variety of cinematic techniques and approaches to the art of movie-making. Every movie will be followed by discussions about the director's choices of themes and ideas.
