Integrated devices for electro-optical communications

Inphi Corporation – Introduction to the Company

Giovanni Cesura, Senior Director

Enrico Temporiti, Director

Inphi Corporation - Pavia

14 December 2020, h. 10

Virtual room:

<https://us02web.zoom.us/j/91079409335>

Inphi Corporation is a global leader in high-speed data movement interconnects headquartered in Santa Clara, California. Since 2020 it has expanded its presence in Europe to scale its strategic development resources. This seminar will introduce the Company and will give an overview of the running projects that are addressing current and next generations of products for electro-optical communications, with specific focus on the role of the site in Pavia.

Organizer

Prof. Iliaria Cristiani

Ph.D. Coordinators

Proff. P. Di Barba and P. Malcovati

The seminar will take place in English
