(crediti formativi n. 6)

8.45 Registration and welcome coffee

9.30 Greetings from the Authorities

XXXII OTTORINO ROSSI AWARD

9.40 **Presentation of the Winner**
Angela Berardinelli (Pavia)

10.00 **Lecture by the Winner**
*Lessons learned from novel therapies
for childhood neuromuscular disorders*
Francesco Muntoni (UCL, London)

11.00 **Award ceremony**
Francesco Svelto, Roberto Bergamaschi (Pavia)

CONFERENCE

■ **SESSION I**

Chairpersons: Renato Borgatti (Pavia)
Stefania Corti (Milan)

11.20 *Why is it so difficult to design trials
in childhood rare diseases?*
Eugenio M. Mercuri (Rome)

12.00 *New technologies in the diagnosis and treatment
of inherited neurological disorders*
Enza Maria Valente (Pavia)

12.40 Discussion

13.00 Lunch

■ **SESSION II**

Chairpersons: Stefano Cappa (Pavia)
Barbara Garavaglia (Milan)

14.00 *Genetic frontotemporal dementia: from pathogenic
mechanisms to disease modifying drugs*
Daniela Galimberti (Milan)

14.40 *Strategies for gene therapy in amyotrophic
lateral sclerosis (ALS)*
Vincenzo Silani (Milan)

15.20 *Gene therapy for inborn errors of metabolism*
Nicola Brunetti-Pierri (Naples)

16.00 *Similarities and differences between genetic and
pharmacological models of Parkinson's disease:
pathophysiological implications*
Antonio Pisani (Pavia)

16.40 Discussion

17.00 Concluding Remarks

Scientific Supervisor

Roberto Bergamaschi, *Scientific Director IRCCS Mondino Foundation (Pavia)*

Scientific Committee
